Profile Summary

Computer Science undergraduate with strong foundations in Data Structures, Algorithms, and Object-Oriented Programming. Interested in building scalable software systems using Java, Python, and cloud technologies while applying AI and machine learning to real-world problems.

Education

Koneru Lakshmaiah University (KL University)

July 2024 – May 2028

Bachelor of Technology in Computer Science Engineering (GPA: 9.51 / 10.00)

Hyderabad, Telangana

- Relevant Coursework:** Data Structures & Algorithms, Object-Oriented Programming, Database Management Systems, Operating Systems, Full Stack Application Development, Cloud Infrastructure and Services

Technical Skills and Interests

Programming Languages: Java, Python, SQL

Problem Solving: Practicing Data Structures and Algorithms using Java.

Web Technologies: HTML, CSS, JavaScript, REST APIs

CS Concepts: Data Structures, Algorithms, Object-Oriented Programming, Database Management Systems, Operating Systems, Software Development, API Integration

Cloud Technologies: AWS (EC2, IAM), Microsoft Azure, Cloud Infrastructure, Virtualization

AI/ML Concepts: Machine Learning, Large Language Models (LLMs), Prompt Engineering, Generative AI, Text-to-Speech, AI Model Deployment

Tools: Git, GitHub, Eclipse, Power BI, MS Excel

Projects

AI Resume Analyzer | Python, Streamlit, Gemini API, PyPDF2,

October 2025

- Developed AI-powered resume analysis tool using Python and Streamlit to evaluate resumes against job descriptions.
- Implemented PDF parsing with PyPDF2 and automated keyword matching for ATS compatibility scoring.
- Integrated Large Language Model (Gemini API) to generate intelligent resume feedback.

Mystery Meal Generator | JavaScript, REST API

December 2025

- Developed dynamic web application using JavaScript and REST API integration to generate random meal recipe.
- Implemented DOM manipulation and responsive UI for improved user interaction.

Student Personal Branding Website | HTML, CSS, JavaScript

August 2025

- Designed and developed a responsive personal portfolio website to showcase technical projects and certifications.
- Deployed application using GitHub Pages with mobile-friendly design and optimized performance.

Achievements

Google Cloud Study Jams · Google Cloud Skills Boost

November 2025

Completed hands-on labs in cloud computing, AI, and Big Data technologies; earned exclusive Google Cloud goodies for performance and participation.

Hackathons

-
- **Operating Systems Hackathon** — Developed a mini operating system prototype including scheduler, file system, and utilities using low-level programming concepts.
 - **Agentathon by Google Developers Group [Sign Language Translator]** — Built an AI-powered sign language translator that detects hand gestures through webcam input and converts them to text/audio output.

Experience

Intern — AI & Cloud Technologies | IBM SkillsBuild (AICTE)

Sep 2025 – Oct 2025

- Gained hands-on experience with Artificial Intelligence, Generative AI, and cloud-based application development.
- Built small-scale AI solutions using Python and cloud tools in a collaborative virtual environment.
- Applied prompt engineering, responsible AI practices, and data-driven problem solving to develop deployable AI prototypes.
- Worked with IBM Cloud tools and development workflows to simulate real-world industry projects.

Certifications

Microsoft Certified: Azure AI Fundamentals (AI-900) - Microsoft

November 2025

- **Credential ID:** CC1B6C1412E1AEB8
- **Certification Number:** V2B464-85DA16
- **Certification Link:** <https://learn.microsoft.com/api/credentials/share/en-us/DameraAaryaDeeksha-7266/CC1B6C1412E1AEB8?sharingId=641336DC331CCE8>
