Education

KL University

May 2028 (Expected)

Bachelor of Technology in Computer Science and Engineering (CSE)

- CGPA 9.51 / 10 (present)

Technical Skills

Programming Languages: Java, Python, SQL

Web Technologies: HTML, CSS, JavaScript, REST APIs

Core Computer Science: Data Structures and Algorithms, Object-Oriented Programming, Database Management Systems, Operating Systems, Software Development Lifecycle

Cloud Technologies: AWS (EC2, IAM), Microsoft Azure, Cloud Infrastructure, Virtualization

AI / Data Concepts: Machine Learning, Large Language Models (LLMs), Generative AI, Prompt Engineering, Text-to-Speech, AI Model Deployment

Software Development: Agile Methodologies, CI/CD Concepts, Testing, Debugging, Application Development, System Design

Developer Tools: Git, GitHub, Eclipse IDE, Power BI, Microsoft Excel

Experience

AI & Cloud Technologies Intern — IBM SkillsBuild (AICTE)

Sep 2025 – Oct 2025

- Developed and deployed small-scale **AI and cloud-based applications** using **Python** in a collaborative development environment.
- Implemented **data-driven solutions**, improving understanding of **software development, debugging, and testing workflows**.
- Applied **prompt engineering, responsible AI practices, and problem-solving techniques** to build functional AI prototypes.

Projects

AI Resume Analyzer — React.js, Spring Boot, MySQL

[Link](#)

- Built a full-stack **web application** to analyze resumes against job descriptions using **Python, Streamlit, and MySQL**.
- Implemented **PDF parsing and keyword analysis algorithms** to generate automated **ATS compatibility scores**.
- Integrated **Large Language Model APIs (Gemini)** to generate intelligent resume feedback and improve candidate-job matching.
- Designed backend workflows and **REST API integrations** to support scalable resume analysis and data processing.

VoxLingo AI — Tailwind CSS, Speech Recognition APIs, OpenAI API, TypeScript

[Link](#)

- Developed a real-time **AI-powered language translator** enabling instant **multilingual communication** with **live speech-to-text** and text translation capabilities.
- Integrated **advanced AI APIs, voice recognition** and **responsive modern UI** to deliver fast, accurate, and **seamless cross-language conversations**.
- Built a scalable **full-stack web application** using modern technologies, focusing on performance, user experience, and **real-time interactive communication**.

Certifications

Microsoft Certified: Azure AI Fundamentals (AI-900)

Verify Credential

AWS Certified Cloud Practitioner

Verify Credential

Achievements

- **Google Cloud Study Jams** — Completed hands-on labs in **Cloud Computing, Artificial Intelligence, and Big Data** technologies.
- **HackerRank Problem Solver Certification** — Demonstrated strong coding ability in **algorithms, data structures, and problem solving**.
- **CodeChef Competitive Programming** — Actively solve **algorithmic and data structure problems** to strengthen programming and analytical skills.

Coding Profiles

- CodeChef
- Codeforces
- LeetCode
- Smart Interviews

Leadership & Extracurricular Activities

- **Hackathon Team Leader** — Coordinated team activities, planned project tasks, and collaborated with members to design and develop a functional prototype during the hackathon.
- Assisted in **coding workshops and peer learning sessions**, supporting students in understanding programming concepts, debugging code, and developing problem-solving skills.
